HUMANITARIAN AID FOR UKRAINE

Razom is working with volunteers and partners in the US, Poland and Ukraine to address the emergency medical needs of people in Ukraine. Our focus is on getting tactical medical kits (first aid) to the people who need them. To effectively distribute these supplies quickly, we are also providing certain non-medical supplies that enable the distribution of the aid through accurate communication and navigation. (See list below.)

TACTICAL/MEDICAL SUPPLIES
please contact TacMedUSA@razomforukraine.org if located in the US, and TacMedEU@razomforukraine.org if located in Europe
